

About us

The Union City Outpatient Program at AARS/HealthRIGHT 360 serves adults challenged with a substance use disorder (SUD), and specializes in working with Transitional Aged Youth (18 – 25 years) and with Asian & Pacific Islander populations.

We offer non-medical, therapy-based Outpatient and Intensive Outpatient services, as well as Recovery Support Services through individual and group-based models of care.

Our counseling interventions are evidence-based, client-centered, culturally-relevant and individually tailored to motivate the populations we serve to be resilient and healthy.
